

Channel No.	Repeater Frequency (MHz)	Notes
50	154.7400	YCSO Mingus
51	154.7250	YCSO Spruce
52	155.2500	Prescott PD 1
53	154.8000	Prescott PD 2
54	155.1600	Search and Rescue
55	155.4000	YC Jeep Posse
56	154.1600	Central Yavapai Fire Dispatch
57	154.3400	Prescott Fire Command 2
58	155.5575	Central Yavapai Fire Command 3
59	154.2800	Fire Mutual Aid
60	170.4625	PNF Admin
61	173.9250	PNF Fire Net
62	167.5500	Forest Service TAC 1
63	168.6750	Forest Service TAC 2
64	168.7750	Forest Service TAC 3
65	169.1250	Forest Service Air to Ground
66	167.1750	Forest Service Air to Ground
67	168.0250	Forest Service Law Enforcement

Before programming these frequencies, either ensure your radio cannot transmit on any of them or disable the transmit function when programming those channels.

All these channels are narrowband.

These channels are offset from the normal amateur frequencies by 50 Hz. Usually, tuning to the next lower frequency gives the clearest reception.

These are assumed to be the most likely frequencies that we might monitor. The complete list is at:
